

*The game
that will
tell you
who you
are*

*Choose your own
adventure !!!*

*One morning you wake up.
You are alone in an apartment.
But you can't remember where you are,
nor who you are.*

You can see in the twilight that the room is a **complete mess**, full of old objects... There's a radio from the past century. The wallpaper is torn. What do you do?

- a. You decide to analyse the objects in the room
- b. You decide to venture outside

You decided to investigate the objects in the room.

You did the right choice ! There is no point in looking elsewhere for what you can already find where you are. This corresponds to the "sensing" character of the MBTi. This is the simplest, easiest and most methodical procedure. It presumes practical and logical personality.

You noticed a little notepad. You open it. There's an address there. That of Sarah Mitchell, whose address is at 210 Saliba Street. Now that you have a hint, you decide to go out to find that place.

The first surprise is the futuristic aspect of the city. What year are you in? Where are you? Flying vehicles populate the sky. The women are veiled. It seems that you are in a Muslim country. A lady sitting in the middle of the sidewalk appears to be an "adventure teller."

Do you want to go talk to her for information?

Yes

No, you prefer to move on to find other clues that will allow you to find Sarah Mitchell's house

You chose to approach the psychic.
This is a sign of "openness to spirituality".

As you get closer to her, a whole group forms around her. She asks you how she can help you. You tell her that you are looking for 210 Saliba Street. She shows you the direction. It's only a few steps away.

a. You go there directly.

b. You decide to walk around the town first

This is a typical Egyptian house. You don't waste any more time. You knock at the door.

Unfortunately, nobody answers.

It seems extremely urgent for you to enter the house.

The house got
suddenly very old
and dusty. Time flies
at an incredible
speed. What's
gonna happen next?

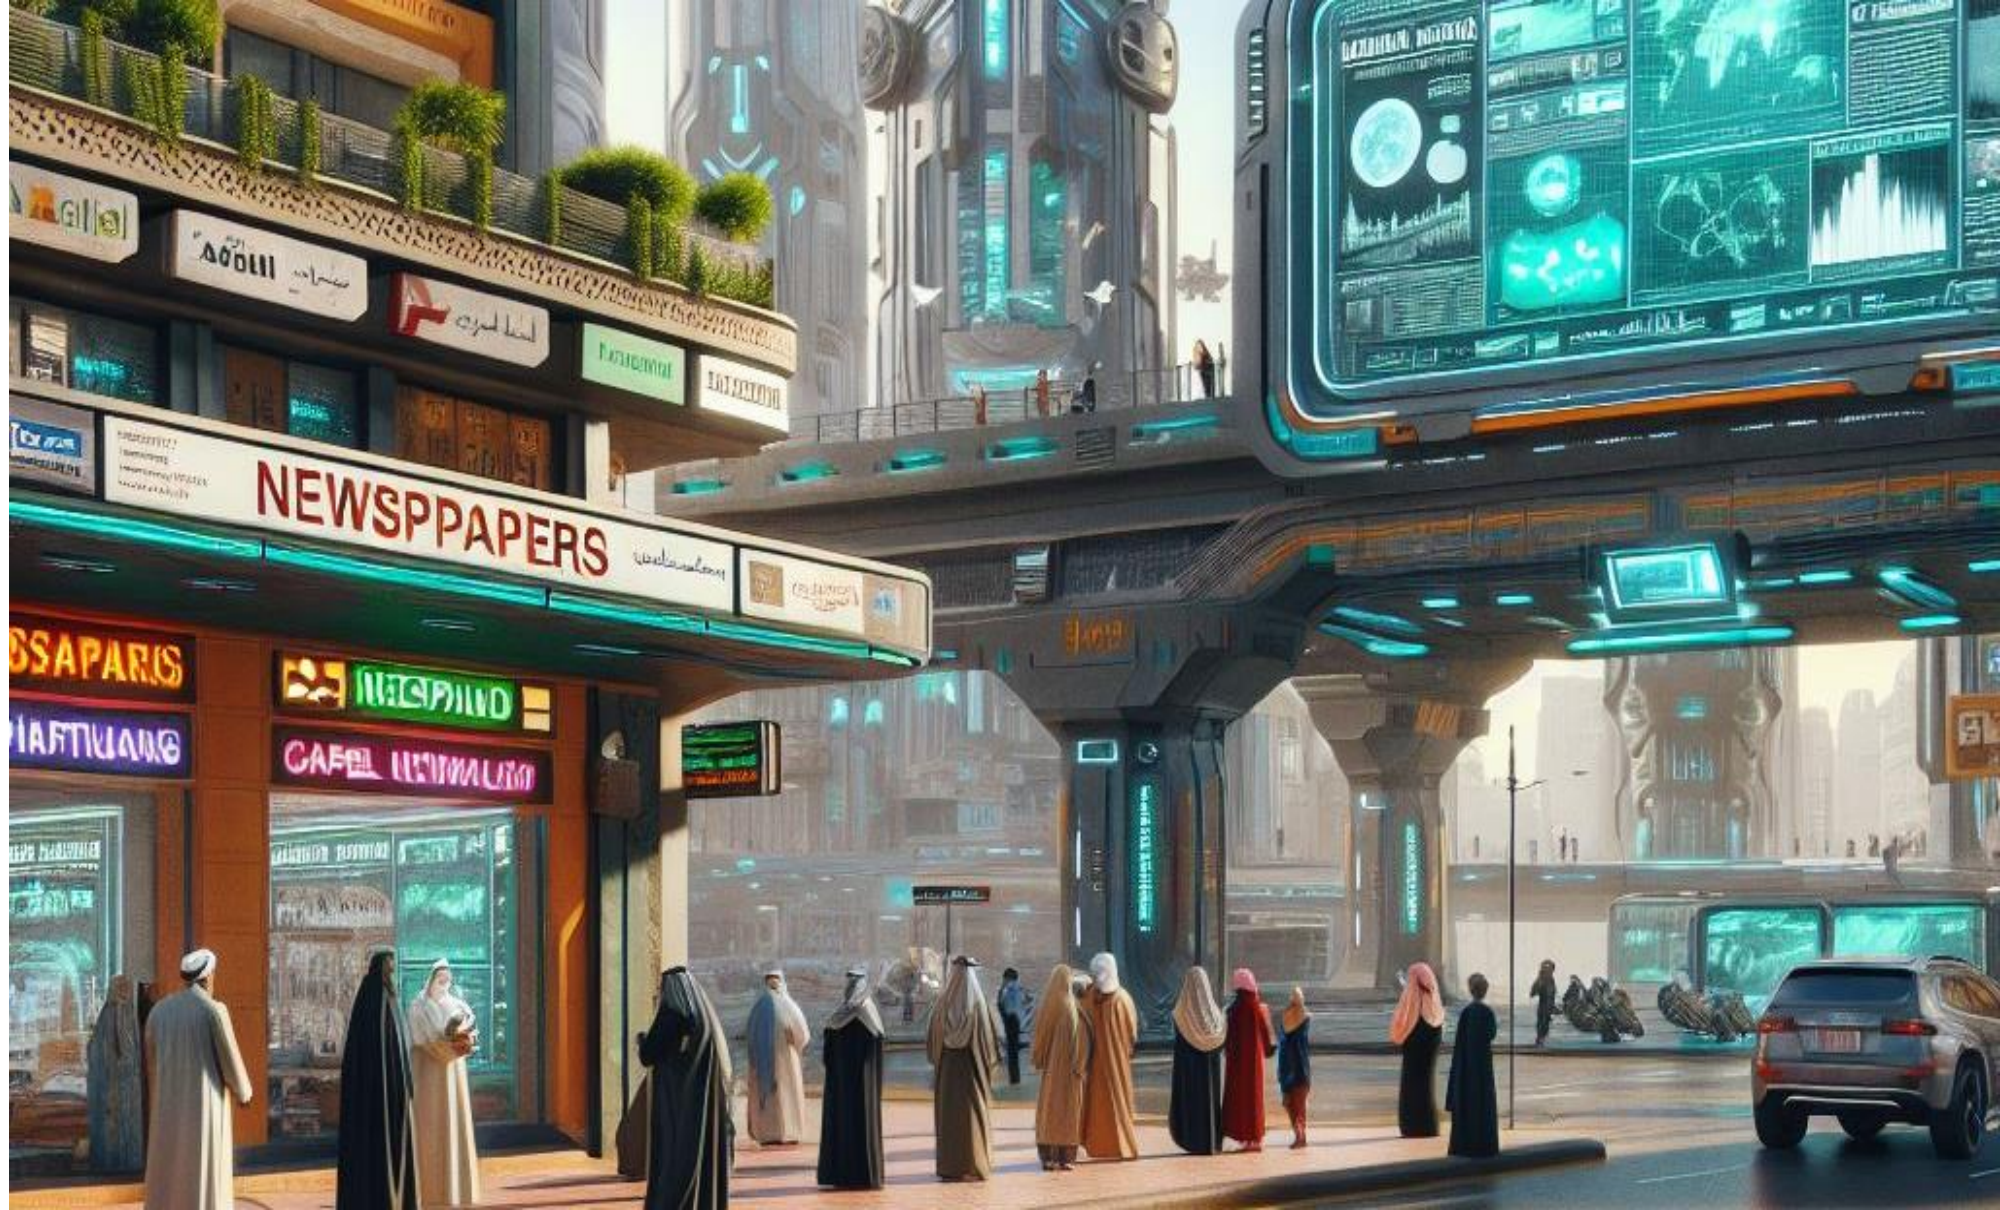

The house
changed
aspect again.

You make a
quick decision :

- a. To break into
the house
- b. You think
there must be
another
solution

You notice that there is a small bookshop around the corner. This may be where you will find some answers to the questions that are bothering you.

One of the newspapers displays the year 2075. Besides, you HEAR A VOICE TELLING YOU to directly to number 210 Saliba street.

When you kicked down the door, you showed a sign of aggressiveness, more prosaically, we will speak this a sign "masculinity". You find yourself in a dark room with a mirror. You do see the reflection of a young man.

You hear some noise. You decide to go to the next room.

There was another solution indeed, all you had to do was to push the door. By deciding not to “break into the house”, you showed a lack of aggressiveness, or what we may call “femininity”. You find yourself in a dark room with a mirror. You do see the reflection of a young woman. You hear footsteps. You go towards the footsteps.

You cross another dark room that has the look of a modern, western bedroom.

You realize that someone must have slept on the sofa because there is a duvet there. However, you still hear the footsteps from lower down.

You walk toward the footsteps.

The house opens onto a patio which, once again, takes up the Egyptian style. An Egyptian woman seems to be fleeing.

a. You call her

b. Maybe she's afraid of you. You let her go

Your perseverance has paid off. The Egyptian woman has agreed to offer you a chat in her living room.

“I can’t tell you who I am, but you must believe everything I say. But we can’t stay here. Please follow me”

“You are living the wrong life. You were sent to the future by mistake. You need to go back to your real life. Please follow me. I will help you to do it.”

You find
yourself
outside, in
this city of
Cairo in the
future.

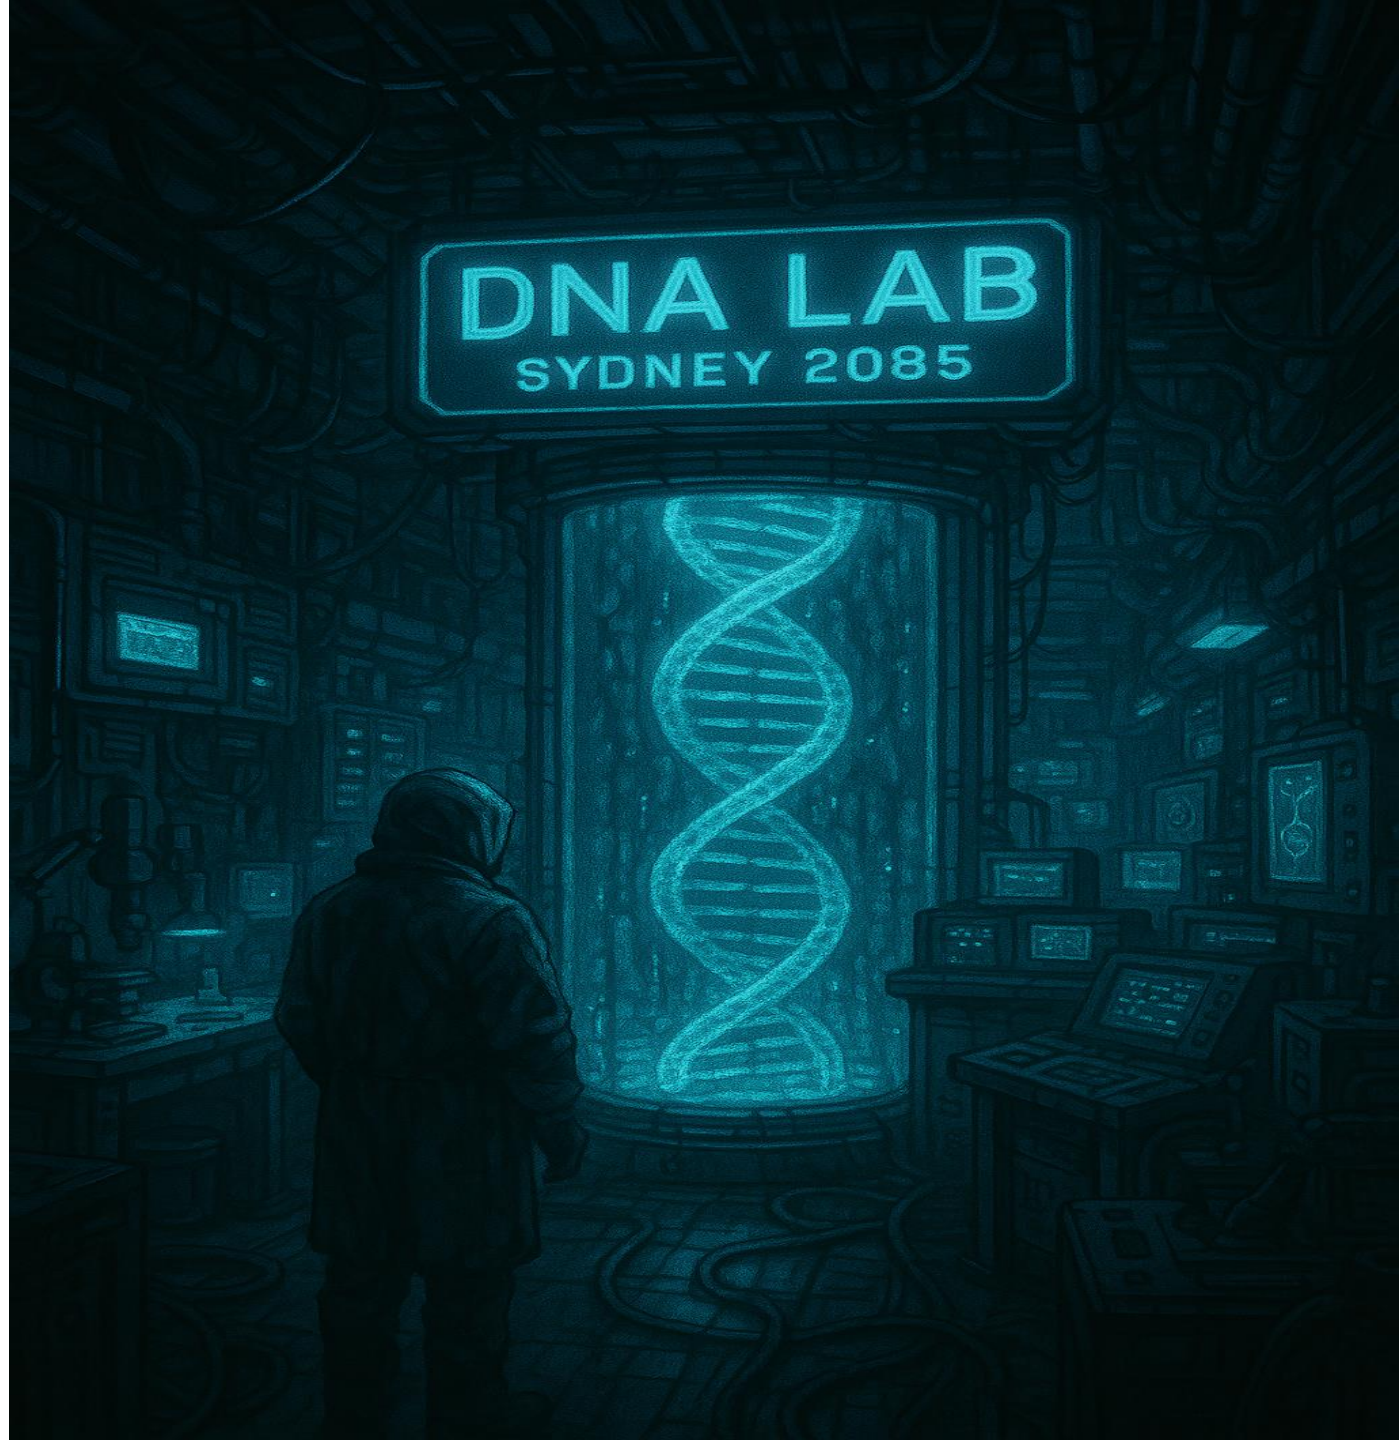

What really
happened?

A lady
covered in
back is now
approaching
you.

You are brought to a
« DNA lab ».

You wonder what's
goint to happen next.

A person is seen from behind, sitting in a control room with a large window overlooking a city skyline at night. The person is looking at a screen that displays a list of past lives. The control room has various panels and buttons.

Felipe Gonzales. Granada, Spain
1512 Cuzco, Spanish Empire, 1551
Conquistador

Willy Sheehan Plymouth, England
1661 Port-Royal, Jamaica, 1692

Alexis Chamberlain Paris, France
1769 Thebes, Egypt, 1801

Kevin Johanson Flint, USA 1989
2039 Pyongyang, North-Korea, 2037
Professional athlete

The lady brought you to what looks like a control tower. A screen is listing all your past lives.

You need to choose which one to go back to:

a. Alexis born in Paris in 1769

b. Kevin born in USA in 1989

You decided to live the life of Alexis, born in France in 1769. During his lifetime, he joined the Napoleon expedition to Egypt. You are now back to Egypt in 1798.

Do you feep fighting in the French army to conquer Egypt

Or

Escape to explore Egypt on your own

You have chosen freedom over war.
Good choice!
It's better for your well-being and inner peace.

Unfortunately, as you are riding away on your camel, a bullet stings you in the back.

You fall off the camel and lose consciousness.

You are in the middle of a bloody battle between the 1798 French republican army and the Mamluks of Egypt. Unfortunately for you, you feel a pain in your heart. A bullet just stung you.

You have chosen to live the life of Kevin, who was born in 1989 in America. As it turns out, during his lifetime, Kevin joined the American secret services, you are now in a mission to North-Korea.

You are in the Cockpit of an air vessel.

“Direction PyongYang!”
The pilot tells you.
“Look ! How old do you
think he is?” The pilot
asks you while showing
you the picture of Kim
ill Sin.

You answer:

A. 31

B. 42

C. 147

“You are correct ! Kim ill Sin is now 147 years old. He rejuvenates constantly thanks to some genetic procedure. But we will reverse it by infiltrating his secret lab to infuse an Oscar Wilde DNA strand in his medication”

Do you:

- a. Ask for some explanation
- b. Just go for it, asking for explanation might generate some suspicions about you

“Wrong answer !!! Kim ill Sin is now 147 years old. He rejuvenates constantly thanks to some genetic procedure. But we will reverse it by infiltrating his secret lab to infuse an Oscar Wilde DNA strand in his medication”

Do you:

- a. Ask for some explanation
- b. Just go for it, asking for explanation might generate some suspicions about you

“Oscar Wilde was carrying a gene – the gene of honesty. By inserting it in Kim Il Sin’s medication, he won’t be able to lie anymore.”

Kim is now organizing a race in downtown Pyong Yang.

You didn't ask for any explanation, but, lucky you, you are explained what's happening anyway:

“Oscar Wilde was carrying a gene – the gene of honesty. By inserting it in Kim ill Sin’s medication, he won’t be able to lie anymore.”

Kim is now organizing a race in downtown Pyong Yang.

“I declare the Pyong Yang international race of peace opened!!”

You hear Kim ill Sin’s speech as it is broadcasted in all the speakers of the city.

“Let’s just wait, your colleague tells you. At some point, he will say something that will threaten him.”

As the race goes on, and as the North-Korean team is about to lose, Kim ill Sin loses patience.

“I told them they must let the North-Korean team win!!” Kim ill Sin shouts out in all the speakers of the country.

The supreme and dear leader can't stand it anymore. And he becomes more honest than ever.

“Destroy them all!” he shouts out.

A sudden air battle is taking place in the sky.

A bomb has also exploded just near you.

You must have
passed out
after playing
the whole
night with
your friends.

You are now awake and fully conscious. But it's also the time for you to reflect upon your game addiction. Spend a bit less time in front of screens! Go out, do more physical exercises!

But congratulations for your dedication to finishing this Choose your own adventure Game!!! See you soon!

You'd been
working the
whole night to
finish your
assignment
before the
deadline.

And
unfortunately,
you passed
out.

It is now time to reflect upon your excessively hard-working life! Unfortunately, you are experiencing a burnout. Our first advice would be that you spend more time relaxing!!!! Take care of yourself!

Congratulations for having finished this “Choose your own adventure” game!

You have been making too much effort. You were trying to win a race. Unfortunately, you passed out in the middle of running track in the stadium.

You are now awake and fully conscious. It's now the time for you to reflect upon your life. Relax more and take it easy!

Congratulations for your dedication in finishing this “Choose your own adventure” Game!!! See you soon!
